

Spring Client Meetings - Training

These small group meetings proved incredibly popular last year and feedback from attendees was overwhelmingly positive. Unfortunately, I got Covid mid-way through last Spring, so not everyone could attend that had signed up. There are also new clients on board, and quite a few new Keepers/Underkeepers and so I am running more courses this Spring. Do come along

To remind you all, these are the courses run to curricula designed by the British Veterinary Poultry Association's Gamebird Working Party (of which I am part) and I provide these for free to Keepers and Underkeepers on Shoots/Gamefarms subscribed to my retainer scheme, and (this year) for a small donation to the Gamekeepers Welfare Trust for anyone else who wishes to attend.

Do please book in by emailing or messaging me and I will then forward you the venue details just before each event.
